PRIMARY EXAMINER

1 The following is an examiner's statement of reasons for allowance:

The references of prior art made of record do not teach the selection of a register separate from free physical registers for register renaming (to retain the flag value in the free physical register) based on an indicator associated with each free physical register, where the indicator represent a state of the free physical register upon retiring of an instruction that caused storing of flag value and result data value that is overwritten by a subsequent instruction that updates the same logical register mapped to the freed physical register for only the data value.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
